

## Colorectal Clinical Subgroup

### NSSG/MDT Agreed Policy on Referrals for Patients Outside the Agreed Primary Care Referral Process (measure 11-1C-114d)

The Greater Manchester & Cheshire Cancer Network Colorectal Clinical Subgroup in consultation with the Network Multidisciplinary Teams, have agreed that when patients are diagnosed unexpectedly or incidentally with colorectal cancer, or known patients are diagnosed with recurrent or metastatic disease by clinicians who are not members of a colorectal MDT, that these patients will be referred to a named core member of a relevant colorectal MDT.

The referral should be made by the end of the first complete working day following the discovery of the diagnosis.

Methods of communication should be either via, telephone, fax or letter

It is the responsibility of the clinician who has diagnosed the patient to contact the colorectal MDT member to make the referral. The patient will be informed of the referral by the clinician who has diagnosed and referred the patient. This will be done by either face to face, by telephone or by letter.

The patient will be informed of the diagnosis by the clinician who made the diagnosis or by the core member of the colorectal MDT to which they have been referred. This will be done at a consultation where the clinician will discuss the diagnosis with the patient.

**Approved by the Colorectal CSG: 14 Sept 2011**

**Date for Review: June 2012**
